Veronica T. Rowe, PhD, OTR/L
Assistant Professor

I. General Research Interest

- A. Neurorehabilitation after stroke or other brain injury
 - 1. Hemiparetic upper extremity
 - a. Task oriented training
 - b. Constraint Induced Movement Therapy (CIMT)
 - 2. Physical and functional assessments
 - a. Fugl-Meyer Assessment for the Upper Extremity
 - b. Wolf Motor Function Test
 - c. Functional Test for the Hemiparetic Upper extremity
 - d. Stroke Impact Scale and Motor Activity Log
- B. Knowledge translation

II. Current Research Projects

- A. TRANScranial direct current stimulation for P_Ost-stroke motor Recovery - a phase II sTudy (TRANSPORT 2). In charge of standardizing all evaluators and maintaining ongoing fidelity of outcome assessment administration, and adjudicating all scores of the primary outcome measure.
- B. Taking Off Pounds after Stroke (TOPS) research study – In charge of Fugl-Meyer training and standardization.

III. Research Skills

- A. Research project management and recruitment
- B. Quantitative research methodologies
- C. Developing, implementing and evaluating interventions
- D. Teaching, standardizing administration, and monitoring assessments for research studies
